**Northern Editions** is situated on the grounds of the Charles Darwin University in Darwin and is the longest established producer and publisher of limited edition prints in northern Australia.

Founded in 1993 as Northern Territory University Print Workshop and renamed Northern Editions in 1997, it collaborates with individual artists and aboriginal art centres to produce and exhibit etchings, woodblocks, screenprints, lithographs and linocuts. Since its inception, the studio has worked with more than 200 artists, the majority from remote indigenous communities from the east Kimberley region of Western Australia throughout the Northern Territory to north west Queensland.

Bridget McDonnell Gallery • Hampton is delighted to present a selection of works from The Northern Editions Gallery by some of Australia's finest indigenous artists.
